

Coles area

June 3, 1974

Description of Facility

This is a Federally owned and U.S. Electronics Command operated facility. It is an intergrated part of the Ft. Monmouth operations known as the Coles Signal Lab.

The facility is located approximately 3 miles Northwest of the main area complex at the intersection of Newman Springs Road (NJ route 520) and Half Mile Road and is adjacent to exit 109 of the Garden State Parkway.

The facility's activities involve the design and development of field signal equipment for the U.S. Army Communications Command.

Access to the facility is by the Garden State Parkway and/or N.J. Route 520 (Newman Springs Road).

The personnel at this facility are graderally being transferred to a new building complex known as "Green Acres" located off of Federal Property adjacent to and West of Exit 109 of the Garden State Parkway.

At present there are approximatley 100 persons left at this location. Phaseout is planned for the final quarter of 1974.

Date of Visit

This area of the Ft. Monmouth complex was visited on June 7, 1974 by Mr. Lester L. Nagel, of the Federal Facilities Branch EPA, Region II, for the purpose of an Environmental Evaluation of its activities.
